FRUIT JUICES

LARA BIO & PREMIUM JUICES

100% pure juices - pure fruit enjoyment!

We at LARA are only pleased if our customers feel that they are drinking juices that taste like freshly squeezed.

To achieve this, the greatest efforts are required. From the selection of the best ripe fruits to responsible processing with gentle treatment when removing water to careful filling in the LARA BagInBoxes.

Each step is permanently monitored and checked. Only then is the perfect premium enjoyment guaranteed for LARA fruit juices - as if freshly squeezed!

LARA BIO & PREMIUM JUICES

100% pure juices - pure fruit enjoyment!

LARA organic and premium fruit juices are delivered in 5 liter BagInBox packaging. They are dispensed by LARA BEVANDOR glass for glass in perfect taste quality.

The mixing ratio is between 1:5 and 1:6, depending on the respective fruit juice.

This means that 1 litre of juice concentrate produces up to 7 litres of finished premium fruit juice. When "sprayed juices" are served, the ratio is correspondingly higher.

3 different types of juice can be used simultaneously in the LARA BEVANDOR.
